PRODUCT INFORMATION GUIDE

BUILDING STONE

★ The Semco Promise ★

Semco Stone owns and operates our own quarries. We pride ourselves in providing a natural and quality product. Our diverse building stone collection has some of the most unique products you will find. The beauty of our products is they are made from natural stone, therefore variations should and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques – and even actual viewing conditions – can alter perception of color.

Selections should be made from actual samples whenever possible, but even samples can vary from the delivered product simply because the beauty of natural stone is that each piece is unique. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with masons, contractors and your sales representative so that Semco can do our best to provide exactly what you need to complete your dream project.

As the largest distributor of natural stone products in the Midwest, at Semco Stone, we have earned our reputation through consistent products, advancements in technology, and quality and service that exceed industry standards, laying a solid groundwork for your success. We operate to ensure lasting satisfaction and something our customers can enjoy for years to come.

"People don't buy what you do; they buy why you do it. And what you do simply proves what you believe."

Section 8	Glossary

- Discrepancies/damage must be reported within 5 business days of delivery.
- Special order or non-stock material - 50% non-refundable deposit prior to material being fabricated - NO RETURNS.
- Please call for Freight rate.
- Please Note: Additional freight charge on specified products as noted on price sheet.
- Products can be mixed to obtain full load price discounts.
- Pallet covers \$2.00 each.
- Terms: Net 30 days on approved credit. Service charges accrue at the rate of 1.5% per month (18% APR) on all invoices not paid by due date. Accounts 60 days or more past due are subject to COD only terms and/or suspension of delivery.
- Accepted Payment Options: Cash, check, money order, American Express / Discover / MasterCard Visa, or Check by Fax (please call for more details).
- Restocking Fee: 20% restocking fee plus freight on all returned items. No returns after 30 days. No partial pallets accepted.
- Building Products Restocking Fee: 35% restocking fee on all returned items. No returns after 30 days. No partial pallets accepted.
- Warranty Policy: All products with warranties such as Atlantic & Pond Master Pumps must be returned with a copy of the original invoice.
- Jobsite delivery charge of \$60.00 includes 1 hour for forklift & driver, each additional 1/2 hour is \$60.00.
- Prices are subject to change without notice.
- Load Changes: Cut off at 2:00 p.m. the day before shipment.
- Products shipped in full pallet quantities only.
- Stone products are a natural product and subject to the natural variances in color, size and quantity.
- Accounts without copies of proper tax exemption certificates on file will be assessed applicable taxes.
- Prices do not include templates, patterns or engineering unless otherwise indicated.
- No discounts on trucking or palletizing.
- Due to the fluctuations of fuel prices, loads are subject to fuel surcharges.

Semco Building Stone and Landscape Stone are natural stone products. Semco uses state-of-the-art technology to extract the stone in its natural state as safely as possible. However, products may contain cracks, pits, or other imperfections as a result of the quarrying process. The beauty of natural stone products resides in its unique characteristics; as a result, color, texture, size and bed-face variations will occur and may vary from samples provided to the customer and from shipment to shipment. Photographs, print material and items viewed on the Internet may be, in some measure, different from the stone you actually receive. All products are provided to you "AS IS" without warranty of any kind.

TERMS & POLICIES

Full Veneer & ThinCut sq.ft. coverage is based on a standard 1/2" mortar joint.

Full Veneer
Apx. 40 sq.ft./ton

TC Bulk Flats
100 sq.ft./plt

TC Boxed Flats
8 sq.ft./box (24 boxes/plt)

TC Bulk Corners
80 ln.ft./plt

TC Boxed Corners
8 ln.ft./box (20 boxes/plt)

Depending on the lay of the stone, **RANDOM HEIGHT VENEER** can be elegant or rustic and unrefined. Our Random Height veneer is snapped stone with heights created by the natural horizontal layering in the quarry formed millions of years ago. Some pieces may contain 1 sawn edge. Semco also offers **ThinCut™ Natural Stone Veneer**. ThinCut™ is available in depths that average approximately 1" thick and is only 1/4 the weight of full veneer (approximately 13 lbs. per sq.ft.), which allows this veneer to be installed where full veneer cannot be used or is too difficult to install.

The rounded edges and irregular shapes of **TUMBLED RANDOM HEIGHT** veneer give it extraordinary design flexibility. The shape of this cut comes from naturally formed horizontal layers of stone within our quarry that have been snapped in a variety of lengths and then tumbled to create a soft, old world or aged appearance. Some pieces may contain 1 sawn edge. Semco also offers **ThinCut™ Natural Stone Veneer**. ThinCut™ is available in depths that average approximately 1" thick and is only 1/4 the weight of full veneer (approximately 13 lbs. per sq.ft.), which allows this veneer to be installed where full veneer cannot be used or is too difficult to install.

DIMENSIONAL veneer is created by sawing the stone to specified heights, usually 2 1/4", 5", 7 3/4" and Jumper 10 1/2". **Semco's Dimensional height percentages are approximately; 18% = 2 1/4", 36% = 5", 46% = 7 3/4" (unless otherwise noted)**. The stone can be laid in a random pattern. As the mason works the stone, it fits together similar to a puzzle creating clean lines and a uniform appearance. Semco also offers **ThinCut™ Natural Stone Veneer**. ThinCut™ is available in depths that average approximately 1" thick and is only 1/4 the weight of full veneer (approximately 13 lbs. per sq.ft.), which allows this veneer to be installed where full veneer cannot be used or is too difficult to install.

The old world appearance of **TUMBLED DIMENSIONAL** veneer is created when quarried stone is sawn to specified heights, usually 2 1/4", 5", 7 3/4" and Jumper 10 1/2" then snapped at random lengths. **Semco's Tumbled Dimensional height percentages are approximately; 18% = 2 1/4", 36% = 5", 46% = 7 3/4" (unless otherwise noted)**. Snapped once more to the correct depth, the Dimensional Stone is then tumbled, which smoothes the sharp edges and gives the impression the stone is aged. Semco also offers **ThinCut™ Natural Stone Veneer**. ThinCut™ is available in depths that average approximately 1" thick and is only 1/4 the weight of full veneer (approximately 13 lbs. per sq.ft.), which allows this veneer to be installed where full veneer cannot be used or is too difficult to install.

Whether laid horizontal or vertical, the long and narrow **LEDGE ThinCut™ VENEER** is a sought after element in contemporary residential and commercial design. Ledge ThinCut™ Veneer is available in depths that average approximately 1" thick and is only 1/4 the weight of full veneer (approximately 13 lbs. per sq.ft.), which allows this veneer to be installed where full veneer cannot be used or is too difficult to install.

Like the mosaics of ancient Rome, **WEBWALL** is a pattern of different stones that fit together as orderly as the mason or home owner desires. This application is perfect for interior fireplaces or exterior applications and complementary to any rustic, classic or contemporary design. Semco also offers **ThinCut™ Natural Stone Veneer**. ThinCut™ is available in depths that average approximately 1" thick, (up to 1 3/4"), and is only 1/4 the weight of full veneer (approximately 13 lbs. per sq.ft.), which allows this veneer to be installed where full veneer cannot be used or is too difficult to install.

For more information on Semco's ThinCut™ Natural Stone Veneer contact your Semco Sales Representative.

S149T-TV	Dove Gray Tumbled Dimensional T/V Flats	/sf
S191T	Mountain Ridge Tumbled Dimensional Full Veneer 100% Split-face. Lengths: Random up to 24in. Color: Gray, blue & buff tones	/ton
S191T-TVC	Mountain Ridge Tumbled Dimensional T/V Corners	/lf
S191T-TV	Mountain Ridge Tumbled Dimensional T/V Flats	/sf
S193T	Rockport Blend Tumbled Dimensional 90% Mountain Ridge Split- face. 10% Blue River Split-face. Lengths: Random up to 24in. Color: Light & dark gray, blue & buff tones	/ton
S193T-TVC	Rockport Blend Tumbled Dimensional T/V Corners	/lf
S193T-TV	Rockport Blend Tumbled Dimensional T/V Flats	/sf
S129T	Rustic Cedar Tumbled Dimensional Full Veneer Split ends & face. Heights: Cannot exceed 7 3/4in. Lengths: Random up to 24in. Color: Light buff cream colored	/ton
S129T-TVC	Rustic Cedar Tumbled Dimensional T/V Corners	/lf
S129T-TV	Rustic Cedar Tumbled Dimensional T/V Flats	/sf
S419T	Silver Mist Tumbled Dimensional Full Veneer 100% Split-face. Lengths: Random. Color: Darker gray with dark blue veins	/ton
S419T-TVC	Silver Mist Dimensional Tumbled T/V Corners	/lf
S419T-TV	Silver Mist Dimensional Tumbled T/V Flats	/sf
S417T	Viking Pointe Tumbled Dimensional Full Veneer 100% Split-face. Lengths: Random. Color: Light to dark gray with blue veins, cream, with buff veins	/ton
S417T-TVC	Viking Pointe Tumbled Dimensional T/V Corners	/lf
S417T-TV	Viking Pointe Tumbled Dimensional T/V Flats	/sf
S139T	Weston Cream Tumbled Dimensional Full Veneer Lengths: Random up to 24in. Color: Light buff cream colored	/ton
S139T-TVC	Weston Cream Tumbled Dimensional T/V Corners	/lf
S139T-TV	Weston Cream Tumbled Dimensional T/V Flats	/sf

S128T-TV	Wideman Gray Tumbled Dimensional T/V Flats	/sf

Semco Stone 2023

Item#		Price
M171	Canadian Ledge Full Veneer	/ton
	Mix of Bed-face & Split-face. Heights: 3in. - 5in. Lengths: Random. Color: White to light tan to brown with some rust	
M171-TVC	Canadian Ledge T/V Corners	/lf
M171-TV	Canadian Ledge T/V Flats	/sf
S196-TV	Hawkeye Sawm Ledge ThinCut	
	100% Bed-face. Natural back. Heights: 2in., 3in., 4in. Lengths: Random up to 24in. Color: Light to dark buffs & browns	
S196-TVC	Hawkeye Sawm Ledge T/V Corners	/lf
S196-TV	Hawkeye Sawm Ledge T/V Flats	/sf
S197-TV	Iron Mountain Sawm Ledge ThinCut	
	100% Bed-face. Natural back. Heights: 2in., 3in., 4in. Lengths: Random up to 24in. Color: Light to dark blues & browns	
S197-TVC	Iron Mountain Sawm Ledge T/V Corners	/lf
S197-TV	Iron Mountain Sawm Ledge T/V Flats	/sf
S198-TV	Platinum Sawm Ledge ThinCut	
	100% Bed-face. Heights: 2in., 3in., 4in. Lengths: Random up to 24in. Color: Light to dark grays & blues	
S198-TVC	Platinum Sawm Ledge T/V Corners	/lf
S198-TV	Platinum Sawm Ledge T/V Flats	/sf
S198S-TV	Platinum Sawm Ledge ThinCut Sawn Back	
	100% Bed-face. Heights: 2in., 3in., 4in. Lengths: Random up to 24in. Color: Light to dark grays & blues	
S198S-TVC	Platinum Sawm Ledge T/V Corners Sawn Back	/lf
S198S-TV	Platinum Sawm Ledge T/V Flats Sawn Back	/sf
M163	Yukon Ledge Full Veneer	/ton
	Heights: 1in. - 4in. Random Lengths: 5in. - 20in. Random Color: Deep rust to dark brown seamface	
M163-TVC	Yukon Ledge T/V Corners	/lf
M163-TV	Yukon Ledge T/V Flats	/sf
M125WEB	Cedar Webwall Full Veneer	/ton
	Irregular pieces. THIN CUT: 6in. - 10.5in. diameters x 2.25in. thick. Some pieces may have a natural back. Color: Light buff to off white with some occasional gold and dark brown mix in bedface	
M125WEB-TVC	Cedar Webwall T/V Corners	/lf
M125WEB-TV	Cedar Webwall T/V Flats	/sf
265	Cheyenne Webwall Full Veneer	/ton
	Irregular Bed-face. 12in.x12in. up to 18in.x24in. diameters; Apx. 3in. - 5in. thick. Color: Rust, shades of brown & tan, speckled with dark brown	
265WEB-TVC	Cheyenne Webwall T/V Corners	/lf
265WEB-TV	Cheyenne Webwall T/V Flats	/sf
M114	Legacy Falls Webwall Full Veneer	/ton
	Irregular pieces, 6in. - 10in. diameters. Colors: Earthtones with some moss & lichens	
M114-TV	Legacy Falls Webwall T/V Corners (102 lf)	/lf
M114-TV	Legacy Falls Webwall T/V Flats (156 sf)	/sf

Semco Stone 2023

Item#		Price
S-100SLAB2.25F	Blue River Slab - Finished Dense blue-gray limestone. Great for countertops, outdoor kitchens, hearths, caps, sandblasted signs & more. Sizes: 2.25in. (6 cm) thickness x up to 30in. widths x 6ft. lengths. Finishes: Polished, Honed, Antique Brush, Bushhammer, Thermal. Edge Treatments: Machine Cut, Rock Face, Full Bullnose, Half Bullnose, Bevel, Ogee	/sf
S-100SLAB2.25	Blue River Slab - Unfinished Dense blue-gray limestone. Sizes: 2.25in. (6 cm) thickness x up to 30in. widths x 6ft. lengths. Finishes: Sawn 2 sides. Raw Slab	/sf
S-147SLAB1	Brentwood Slab 1.25in. (serialized) - Unfinished Quartzite sandstone with the elegant look of detailed woodgrain. Great for countertops, outdoor kitchens, hearths, caps, sandblasted signs and more. Raw Slab	/sf
S-147SLAB2	Brentwood Slab 2in. (serialized) - Unfinished Quartzite sandstone with the elegant look of detailed woodgrain. Great for countertops, outdoor kitchens, hearths, caps, sandblasted signs and more. Raw Slab	/sf
S-148SLAB2	Sooner Wheat Slab 2in. Light buff in color with varying slabs having some darker veining/movement. Size Range: Apx. 4ft. x 8ft. x 2in. thick	/sf

Natural Stone Sills

Item#		Price
S-415SIL3	Black Hills Sill 3in. x 24in.	/ea
S-415SIL6	Black Hills Sill 6in. x 24in. Sawn back, machine cut three sides. 2.25in. high x 3in. or 6in. deep x 24in. long. Colors: Tan, pink, rust & black *Finishes: Natural top & bottom only	/ea
S-100SIL3	Blue River Sill 3in. X 24in.	/ea
S-100SIL6	Blue River Sill 6in. X 24in. 2.25in. high x 3in. or 6in. deep x 24in. long Colors: Gray *Finishes: Antique Brush, Bushhammer, Honed, Polished, Thermal	/ea
S-147SIL3	Brentwood Sill 3in. x 24in.	/ea
S-147SIL6	Brentwood Sill 6in. x 24in. 2.25in. high x 3in. or 6in. deep x 24in. long. Colors: Range of chocolate to light brown & buff. Beautiful texture resembling wood rings on a tree. *Finishes: Antique Brush, Bushhammer, Honed, Polished	/ea
S-149SIL3	Dove Gray Sill 3in. x 24in.	/ea
S-149SIL6	Dove Gray Sill 6in. x 24in. 2.25in. high x 3in. or 6in. deep x 24in. long. Colors: Light gray. Sawn top/bottom and back with three machine cut sides. *Finishes: Honed, Polished, Antique Brush, Bushhammer, Thermal	/ea
1802G-701RD	Indiana Limestone Gray Sill 3in. x 48in.	/lf
1802G-110RD	Indiana Limestone Gray Sill 5.5in. x 48in. 2.25in. high x 3in. or 5.5in. deep x 48in. long. Honed top, Sawn ends, bottom & back. Face is Rock Face with a Drip Edge. Colors: Gray *Finishes: Antique Brush, Bushhammer, Polished	/lf

S-191SIL3	Mountain Ridge Sill 3in. x 24in.	/ea
S-191SIL6	Mountain Ridge Sill 6in. x 24in. 2.25in. high x 3in. or 6in. deep x 24in. long. Colors: Gray, blue & buff tones. *Finishes: Antique Brush, Bushhammer, Honed, Polished, Thermal	/ea

Natural Stone Caps

Natural Stone Caps available in Blue River, Brentwood, Brookhaven, Cedar Ridge, Dove Gray, Indiana Limestone, Mountain Ridge, Weston Cream, Sooner Wheat.

Contact your Semco Stone Sales Rep for more information.

Effective March 15th 2023, our policy for “Orders Ready, Over 30 Days”

- **After an order becomes ready for pickup or delivery, the customer will have 30days to accept delivery of material or get it scheduled for delivery.**
 - This applies to orders that we are to ship, as well as orders that the customer intends to handle the freight on.
 - If we are scheduling it, and are being delayed in acquiring a carrier, the customer will not be held responsible. – As long as they are agreeing to a reasonable market rate that we provide.
- **Once an order has hit the 30day threshold and is still sitting, the following will apply:**
 - Customer pays a 50% deposit to hold the order.
 - Without a deposit, the order **will be cancelled** out of the system and the material will be available for the next in line.
 - If a customer still wants the material on order after cancellation, a new order would be needed and current ETA's applied.
- **Order status will be tracked in line with the ETA's posted on the orders.**
 - *For example* : If an order is given an ETA to be complete on May 1st, but is ready early on April 10th, the 30day tracking doesn't start until May 1st.
 - If ready past the ETA, timing starts when ready to be picked up/shipped.
- **For any order that a customer would cancel *after* we have received the 50% deposit, that 50% will be handled as follows:**
 - We will refund 25% (*1/2 of their deposit amount*)
 - The remaining deposit, 25% of the order, will be the restocking fee as per our standard practice.

GLOSSARY

These terms are defined as used by Semco Stone, however in most cases the definitions are generally accepted terminology used within the building stone industry.

STONE CUTS

- **Full Veneer** - Natural building stone with an average depth of 4".
- **ThinCut™ Veneer** - Natural building stone that is mechanically sawn to a depth of approximately 1" thick and is about 1/4 of the weight of full veneer.
- **Random Height** - Generally, stone with heights created by the random natural horizontal layering in the quarry known as bed-face. The stone is snapped by a hydraulic splitter to an approx. 3" - 5" depth. Random Height stone can also be created by snapping the stone to specific heights with a hydraulic splitter leaving a rough texture on all sides of the stone.
- **Tumbled Random Height** - Generally, stone with heights created by the random natural horizontal layering in the quarry known as bed-face. The stone is snapped by a hydraulic splitter to an approx. 3" - 5" depth. Tumbled Random Height stone can also be created by snapping the stone to specific heights with a hydraulic splitter leaving a rough texture on all sides of the stone. Tumbled Random Height stone is then mechanically tumbled to break off the sharp edges and create a smoother appearance.
- **Dimensional** - Created by sawing the stone to specific heights, typically 2 1/4", 5" & 7 3/4". 10 1/2" is available in most stones at an additional charge, this size is considered a jumper. The stone will fit together in a dimensional pattern.
- **Tumbled Dimensional** - Created by sawing the stone to specific heights, typically 2 1/4", 5" & 7 3/4". 10 1/2" is available in most stones at an additional charge, this size is considered a jumper. Tumbled Dimensional is then mechanically tumbled to break off the sharp edges and create a smoother appearance. The stones will fit together in a dimensional pattern.
- **Webwall** - A pattern of different random shapes and sizes of stones that fit together as orderly as the mason or home owner desires. Typically created from natural wall stones or flagstones.
- **Tumbled Webwall** - A pattern of different random shapes and sizes of stones that fit together as orderly as the mason or home owner desires. Typically created from natural wall stones or flagstones. Tumbled Webwall is then mechanically tumbled to break off the sharp edges and create a smoother appearance.

STONE FINISHES

- **Antique Brush Finish** - Also known as Leather-look finish. In stone, a smoothed textured surface, just short of polished, imparted by a mechanical rubbing process.
- **Bullnose** - A convex, semicircular molding used on edges of such masonry units as stair treads, window sills, caps & coping. Can be 1/2 or full bullnose, meaning both top & bottom edges are finished.
- **Bushhammer Finish** - A stone surface used decoratively or to provide a roughened traction surface.
- **Honed Finish** - In stone, a very smooth surface, just short of polished, imparted by a mechanical rubbing process.
- **Natural Finish** - In stone, the natural texture of the material, untouched by mechanical processes.
- **Ogee Edge** - A stone profile with a reverse curved edge: concave above, convex below.
- **Polished Finish** - The finest & smoothest finish available in stone characterized by a gloss or reflective property. Generally only possible on hard, dense materials.
- **Rock-face** - Also known as pitched stone, rough-faced stone that has had each edge of the exposed face pitched or hand chiseled. It is cut at a very low bevel, nearly in the plane of the face, in a straight line to form a defined ridge at each mortar
- **Sawed Finish** - Also called sawed-face. Any stone surface left by a sawing process.
- **Thermal Finish** - In stone, a finish created by mechanically heating the surface of a stone to create a unique texture.

STONE FACES

- **Bed-face** - The natural horizontal layers found in rock formations. Can produce a variety of colors depending on the mineral deposits within the formation.
- **Face** - 1) The exposed surface of a wall or masonry unit. 2) The surface of a unit designed to be exposed in the finished masonry.

GLOSSARY

- **Sawed-face** - Also known as sawed finish. Any stone surface left by a sawing process.
- **Split-face** - Also known as snapped or split. A rough masonry face formed by splitting or breaking slabs by hand or by hydraulic splitter. The break should be at right angles to the top & bottom surface.
- **Weathered Edge** - The effect caused by Mother Nature's wear & aging on the exposed surfaces of natural stone leaving a deeply stratified texture.

STONE ACCENTS

- **Cap** - Stone units laid on top of a finished wall or column.
- **Coping** - The stone units or other material forming a cap or finish on top of a wall, pier, pilaster or chimney for example. It protects masonry below from penetration of water from above.
- **Hearthstone** - Originally the large single stone or stones used for the floor of a fireplace; now most commonly used to describe the stone in front of the fire chamber & in many cases extending on either or both sides of the front of the fire chamber.
- **Jumper** - A piece of stone typically of taller height than adjacent stones, used to end a horizontal mortar joint at the point where it is set.
- **Keystone** - Wedge-shaped stone typically seen at the center of an arch or vault.
- **Quoin** - A projecting right angle masonry corner, usually ornamental. Quoins are usually laid so their faces are alternately large and small.
- **Sill** - Also known as Water Table. A flat or slightly beveled stone set horizontally-at the base of an opening in a wall, for example a window or door.
- **Treads** - A flat stone used as the top walking surface on a step.
- **Trimstone** - In building stone, the stone used as decorative members on a structure built or faced largely with other masonry material. Typically used on archways and around openings such as windows & doors.

OTHER TERMS

- **Breaking Joints** - Any arrangement of masonry units that prevents continuous vertical joints from occurring in adjacent courses.
- **Building Stone** - Any stone that may be used in building construction.
- **Castlerock** - Commonly refers to random height stones that are snapped in square & rectangular shapes. Frequently, but not always bed-face material.
- **Course** - One of the continuous horizontal layers of units, bonded with mortar in masonry.
- **Drystack** - Natural stone laid in a fashion where the mortar is applied only to the back of the stone.
- **Joint** - The surface at which two members join or butt. If they are held together by mortar, the mortar-filled aperture is the joint.
- **Limestone** - Rock of sedimentary origin composed principally of calcite or dolomite or both.
- **Masonry** - That form of construction composed of stone, brick, concrete, gypsum, hollow clay tile, concrete block or tile or other similar building units or materials or combination of these materials laid up unit by unit.
- **Mortar** - A mixture of cement or lime or a combination of both with sand and water, used as a bonding agent between bricks, stones, etc.
- **Quarry** - An open excavation at the earth's surface for the purpose of extracting usable stone.
- **Slab** - A broad, flat piece of stone cut or split from a block after quarrying.
- **Veneer** - Non-structural facing of brick, concrete, stone, tile or other similar material attached to a backing for the purpose of ornamentation, protection or insulation.
